***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 11 and 13 are rejected under 35 U.S.C. 102(b) as being anticipated by Bujan (3,960,149). Bujan discloses a medical device (10) for retaining an end of a tube, wherein the medical device comprises a base (18) for receiving said tube, said base comprising a first locking base feature (25,26) and a second locking base feature (23,24), a first tab movable (33) with respect to said base for compressing the tube, said first tab comprising a first locking tab feature (36,35), wherein said first locking tab feature is engagable with said first locking base feature to hold the first tab in a fixed position with respect to the base, and a second tab (28) movable with respect to said base for compressing the tube, said second tab comprising a second locking tab feature (30,31), wherein said second locking tab feature is engagable with said second locking base feature to hold the second tab in a fixed position with respect to the base, wherein said second locking tab feature comprises a plurality of teeth on said second tab, and

said plurality of teeth on said second tab are engagable with said second locking base feature.

***Allowable Subject Matter***

Claims 2-6, 24-29, and 31-34 are allowed.

Claims 12 and 14-15 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
